and a little variety, and "vari-

life."

SS.—The Oregon question still

low length along" in the Senate, and

not notice any thing particularly worthy

in the proceedings of the House.

the Oregon debate in the Senate

has been agreeably diversified by a couple

of "flare-ups,"—one between Mr. Haywood of N.

C and Messrs. Hannegan, Allen, and some other

"whole-or-none" men. Mr. Haywood, in

his speech, stated that the President was in

favor of compromising by accepting 49 deg as the

boundary; this raised quite a breeze, and Mr.

Haywood was severely catechized to learn whether

he made the statement on the authority of the

President. Mr. H. parried the blows aimed

at him, and re-used to give a direct answer, and

after a considerable expenditure of gas, the subject

was dropped. A few days after Mr. Col-

quitt gave the editor of the Washington Times

goss for making a charge against him (Mr. C.)

and some other Southern Senators, of having

formed a coalition, under the auspices of Mr.

Packenham, with the Whigs, to settle the Or-

gon question in violation of the rights of the

United States. He denounced the whole article

as an infamous calumny, and the author of it as a

liar, utterly destitute of morality, feeling, hon-

or, religion, or truth. It is time the Senate was

done with this question: we have had words en-

ough, and quarrelling enough; all we now want

is action.

Post Office Discontinued.—The post master at

Cedar Vale having resigned his appointment, and

no one having signified a willingness to take

his place, the office is for the present discontinued.

All mail matter intended for that office will be

delivered at the post office in Fort Wayne.

THE STATE DEBT LAW.—We fear that

the provisions of this great and important law

have not been as strictly guarded as the Leg-

islature, acting as guardians of the State's

interests, intended to. Its sections are in

many instances vague, and in some few cases

incongruous. This should not have been per-

mitted. Every provision should have been

tendered perfectly plain and clear, and

INTENT distinctly exhibited.

The point to which we now more particu-

larly allude is this. The law is to go into

operation when one-half of all our bonds are

presented, and their owners agree to the ar-

rangements. Then, another provision states

that the bondholders according to our terms

to receive the Canal for one-half of their

debt. It is contended by many through the

State, that by a "strict construction," our

Canal may be taken for only one-fourth of

our State Debt in this way—half of our Bond

holders acquiring in our terms—and they

taking it for one-half of their Bonds. We

protest, for one against any such "arrange-

ment" being permitted. It is contrary to the

clear intention of the members who passed

the law—in direct conflict with the spirit of

ed. Then, on or about the 20th of September,

1844, Mr. Voss gives another receipt for the

amount of the indemnity to commit the Mexi-

cans government for the payment of the same

amount to the U. S. But the Mexican

Congress refuses to allow this, and refuse

to annul the transaction with Voss and T.

Jennison & Co. of the 25th and 27th August

1844; and now, Mr. Shields insists in his let-

ter to T. Jennison & Co. that they ought to

pay. The question is whether the govern-

ment of the United States ought immediately

to pay the claimants all their indemnity.

HORRIBLE MURDER.—Some time ago, a tail-

or of bad character, named Oliver Norris,

was compelled, on account of suspicious be-

havior, to leave Russellville, Illinois.

He was afterwards taken back, tried and ac-

quitted. He then went with his wife to York,

Illinois, where he remained till recently, when

after being stolen, and a friend of his dis-

appearing at the same time, he was suspec-

ted of being accessory to the crime. He

was consequently seized, flagged, and ducked

in the Wabash, the lynchers offering to

release him if he would name his accomplices.

He named some of the most respecta-

ble citizens of the county, among whom were

John G. Long and R. G. Wade. After his

release, he returned with his wife to Russell-

ville, where he readily admitted that he had

slandered Long and Wade, alleging, in his

own justification, that he had been compelled

to give names, and that the persons named

by him were his enemies. Wade, on hearing

this, swore that Norris should leave Russell-

ville immediately. Norris's wife being in

delicate health, and the weather inclement,

some of the citizens remonstrated with Wade,

proposing to let Norris remain a short time

and then to send him off quietly. Then upon

Wade became still more exasperated, and

taking Long with him, went to Russellville,

knocked his house in the street, and swore that

he would kill Norris at sight. Some of the

citizens gave Norris money to bear his ex-

penses, and advised him to depart immedi-

ately, which he was about to do, when he was

met in the street by Long and Wade. They

ordered him to give up his weapons, which

he readily did handing his pistol to Wade.

Long then examined the condition of his own

pistol, and tried the lock deliberately. Nor-

ris, after giving up his pistol, raised his hands

in the most suppliant manner, walked back-

ward, and begged for his life on any condi-

tion. Wade first drew a club, then ran for-

ward and struck Norris with his fist, which

turned him round facing Long, who, cocking

his pistol, took deliberate aim, and shot him

through the head. He fell, and expired in

about an hour or so. Long and Wade both

left, and at the last dates had not again been

heard of.—*Low Jour.*

NEW YORK CANAL TOLLS FOR 1846.

Reduction of Rates.—The canal board at Albany

has adopted a new tariff of tolls for the coming

season. Some important reductions are made,

which will be highly beneficial to western far-

mers. We give the rates of toll on such articles

as we are interested in:

Rates of 1845 Rates of 1846

cheese, tallow, lard, beer, &c.

O'Connell, at the latest accounts, was con-

tinuing his speeches before the "repeal as-

sembly," promising that repeal was close at

hand, and assuring the rent payers, as he

has done for the last ten years, that next year

certainly they should have a Parliament of

their own in College Green. His oratory

has ceased, however, to have the slightest

effect, or to attract the least attention. It is

the simple repetition of premises which he

knows cannot be fulfilled—the repetition of

unfounded statements, with the falsehood of

which the world has been familiar for years;

and it now falls without the slightest effect

upon the ears of the public. In his speech

on the 4th January, he made the following

statement with regard to the foreign relations

of England:

"The king of France, he said, was an older

man than him. His days were numbered,

and the throne he fell, his sons could main-

tain the throne of France only by calling out

his military spirit. They must distinguish

themselves in the field of battle, or the dy-

namy is gone. [Cheers.] England would

want them then, and should have them on

their own terms, the repeal of the union."

Mr. O'Connell then touched upon the project

of raising the English militia. Why did not

they speak of raising the Irish militia? This

was a question ministers asked each other.

[Hear.]

Mr. Bright, the celebrated anti-corn law

speaker, at a meeting of the League held at

Liverpool on the 8th, spoke as follows of the

relations of England and the United States

in connexion with the proposed repeal of the

corn laws:

Mr. Heyworth has spoken of the United

States, and read a paragraph from the report

of Mr. Secretary Walker, which ought to be

published in every newspaper in the kingdom

and by every man in Great Britain and

Ireland—a report which extends the

friendly hand of America to this country, and

ask us to forget by-gones, and to be brethren

as we ought now to be. [Loud cheers.] A

great reduction of the American tariff must

follow the abolition of our corn law, and the

abolition of the corn law will forever destroy

all chance of war between this country and

the United States. [Loud and continued

cheering.] Is there a man then present, with

a spark of benevolence or Christian feeling

who does not see that at this moment he is

bound to come forward and urge on this

question to a final settlement? [Cheers.]

You may not think political agitation good

Men may think we have committed some

blunders in the course of the warfare in which

we have been engaged. All this may be

true; but we have arrived at a point of time

when it is thought there is great danger that

the two greatest and most civilized nations in

the world may be brought into opposition and

war. Well, I say, only repeal the corn laws

this session and all chance of war will be

forever postponed. [Loud and continued

cheering.]

BRITISH PARLIAMENT.

HOUSE OF COMMONS, FEB. 5.—FAMINE IN

IRELAND.—Mr. O'Connell gave notice that

he would to-morrow (his day) call the atten-

tion of the House to the subject of the fam-

ine and disease in Ireland.

THE PURCHASE OF MAIZE.—Mr. Foster

wished to ask the right honorable the Chan-

cellor of the Exchequer whether there was

any truth in a report current out of doors,

that government had purchased or suggested

the purchase of a quantity of maize or Indian

corn, for this market, in the United States

of America. Mr. Foster added that he did not

believe the report himself, but it was believed

by many.

The Chancellor of the Exchequer answered

that almost immediately after the receipt

of the government, of that report of Dr.

Fairplay and Mr. Lindley which had been

laid upon the table, the right honorable bar-

on, the first lord of the treasury, and himself,

consulted upon the course proper to be

taken, and orders were given for purchasing

in the United States, a certain quantity of

maize for the consumption of the people of

Ireland.

THE TARIFF.—Mr. Pattison inquired how

soon the new duties would come into opera-

tion.

Sir R. Peel answered, that so soon as the

house should have affirmed any resolution it

might be pleased to come to, and allow that

resolution to be reported, the government

would propose, in conformity with the

general usage, immediately to permit the

duction of the duties, taking the usual guar-

antee that in the event of the resolution not

receiving the final sanction of Parliament the

old duties should be paid. Generally speak-

ing, therefore, the reduction would take effect

from the day on which the resolution was

passed; but perhaps there would be an ex-

ception made in the case of seeds, on which

the reduction might not take effect until June.

ALL-HEALING BALSAM.

THE Proprietor of this remedy, in offering it to the public, is actuated by a desire to test it his fellow beings. From the commencement of his practice in the year 1840, he has been particularly directed to such diseases which affect the lungs, and watched their progress day by day, until through a series of years he has been enabled to recommend a number of able members of the faculty, who have applied to him for assistance, and are now able to form a correct opinion of the virtues of the remedy, and its use in such cases.

He completely recommends it to the attention of the friends of the sick, and of the afflicted, and he is at all times ready to answer any questions that may be asked.

It is a true and reliable medicine, and is sold in public.

Dr. FOLGER, N. Y. Jan. 20, 1945.
Dear Sir:—Your OTCOSIN has responded to a Remarkable Cure in my family. My mother-in-law has been afflicted for years with Asthma and had received but little benefit from the various remedies recommended to her until she tried your Balm. A few doses entirely cured her, and there have been no recurrence of the disease since. I also used it myself for a severe Cough, and gave some to my children, and in every instance with the best results, curing all of them. I am sure that your Balm is a great Blessing to our Country. I am, Sir, very truly, Yours, J. J. FOLGER, who was being warned of the continuance of a very troublesome Cold and Cough that threatened to lead to consumption. The balm had entirely cured him. A medicine so uniformly successful.

Yours, &c. A. C. CASTLE, M. D.
Dentist, 781 Broadway.

The OLOSONIAN has been administered with great effect at the "Home for Sailors" in Pearl Street, under the direction of Captain Gelston. In every case of severe Cough where it was used produced an immediate cure, and in the case of the "Cough of the Lungs," where trial was made it has proved itself to be worthy of the reputation which it bears as an "All Healing Balm," for cures where all other medicines seem to fail.

The Institution for Aged Indigent Females, and most of our other charitable institutions, have also used it with decided success in Asthma and Consumptive diseases. While other remedies constitute the Bazaar, and thus render it

by which means he good effect is in a measure destroyed and gross defecity produced—this remedy is free from those objections, as under the use the bowels are free. And the cravative is not increased, so that it has not in a single instance been known to fail.

The Proprietor would urge upon the purchaser, not to be deceived, as there are many remedies offered for the cure of Dr. Folger's Longs, which may be forced upon them instead of the one here recommended. The name of *Dr. Folger's Olansonian, or All Healing Balsam* has been given to it to distinguish it from like remedies, and it is hoped that they will not allow any person to put them off with any other medicine when they wish to purchase the one above described.

Mammoth Cave.
HERE we are again at the old stand, the ex-
treme Eastern store, on Columbia street—
(Next door to the City Mills). We have more
than ever offered in this market. I have been
said by some of our friends, that we have more
Goods than we can sell, but they do not understand
how exceedingly low we design selling them, we
are determined to sell them at a low price, and
compete with any in this market, and that with-
out standing in the street to hail every person
who comes. It has been a matter of specula-
tion with men engaged in the Mercantile busi-
ness, whether it is possible to get in an equal
quantity of goods, or not, in other words, whether
it is possible to sustain a One Price Store, where
all can buy by goods without fear of loss on a
retail sale. The subscribers with many to the
public that they have been engaged for the last
eighteen months in endeavoring to solve the above
question and it is with great satisfaction that we
now announce that the problem is solved, and that
goods at a small advance and uniform price work
well, we take this method of informing our cus-
tomers that we feel gratified for the patronage
heretofore so generously bestowed and the pub-

Cash for 20,000 Bushels
OF WHEAT,
At the Empire Mills.
WE are prepared to pay Cash and the
highest price for 20,000 bushels of good
merchantable Wheat.
Farmers and Teamsters will save themselves
much trouble and expense by driving directly
up to the STONE MILLS, and selling their wheat
they will always get the highest price, and avoid
the annoyance of being pestered by the barbers
and whippersnappers from the Stores, who all
bring wheat to our market. We are not much
given to boasting; but as some of our neighbors
are talking of sending 10,000 bushels of wheat
we would inform wheat raisers that we can take
in 20,000; as our Mill, besides being the best,
is the biggest, the highest, and the strongest in
the country. We have a convenient WAG-
ON, YARD and STABLE, for teams coming to
the Mills, and a GOOD STABLE, for the horses,
we always furnish feed for the horses, and occa-
sionally turn in Supper and Breakfast for their
drivers. This is nothing new with us—we have
always thought it our duty to do so, and should
not now mention it if our neighbors had not set
the example.

BY THE QUEEN'S PATENT.

TRIUMPHANT SUCCESS OF
BUCHAN'S
Hungarian Balm of Life,
THE GREAT ENGLISH REMEDY FOR
Colds, Coughs, Asthma, and
CONSUMPTION!

THE most celebrated and infallible remedy for
Colds, Coughs, Asthma, or any form of Pul-
monary Consumption, is the Hungarian Balm of
Life, discovered by Dr. Buchan of London,
England, tested for upwards of seven years in
Great Britain and the Continent of Europe,
and introduced into the United States under the
immediate superintendence of the inventor.
The astonishing success of the Hungarian
Balm, in the cure of every kind of CONSUME-
TION, is now a well established fact, and is a
revelation to the medical world, in offering a
cure for the most terrible disease that can be-
come in the community—cases that seek
relief in vain from any of the common remedies
of the day, and have been given up by the most
distinguished Physicians as incurable and in-
curable. The Hungarian Balm has cured, and
will cure, the most desperate of cases. It is a
quack nostrum, but a standard English Medi-
cine, of known and established efficacy.

Hear the Press.
From the Christian Observer, March 20, 1845:—
The public may be pained by the constant ap-
pearance of the name of the Hungarian Balm,
by Dr. Bradlee, the American Agent, who is an
old and highly respectable citizen of Bos-
ton, a member of a Christian church, and a man
whose word would not for any consideration, give his
testimony in favor of any sort of deception or imposture.
From the Boston Medical Recorder—Dr. Brad-
lee, the American Agent, has conferred a great
benefit upon the country by the introduction of
this great English Medicine into the U. States;
and medical journals would materially aid the
cause of true humanity, by recommending it to
the particular attention of the afflicted.
From the New York Medical Recorder—The Hun-
garian Balm has done more to relieve the suf-
ferings of the operatives employed in our cotton
factories, who are affected with weak lungs, than
all the doctors in the country.

From the Thompsonian—If any thing could
reduce the consumption of the lungs, it would be
the extraordinary reputation of a medicine like
the Hungarian Balm, which we believe to be
truly a great benefit to the human race, and the
most powerful remedy in the treatment of the
consumption, is something truly astonishing.

To the Consumptive!
Every family in the United States should be
supplied with Buchan's Hungarian Balm of Life,
not only to counteract the consumptive
tendencies of the climate, but to be used as a
preventive medicine in all cases of Colds, Coughs,
Sore Throat, Pain in the Side and Chest, In-
flammation and Soreness of the Lungs, Bronchitis,
Difficulty of Breathing, Hoarse Voice, Night
Sweats, Emaciation and General Debility, Asthma,
Hooping Cough, Catarrhs, and generally all
diseases affecting the organs of Respiration.
And not only is it the most powerful agent
known in removing all diseases and obstructions
of the respiratory organs, but in scrofulous mal-
adies, such as the consumption, it is a powerful
remedy, and in the treatment of the disease, it
would be the extraordinary reputation of a medicine
like the Hungarian Balm, which we believe to be
truly a great benefit to the human race, and the
most powerful remedy in the treatment of the
consumption, is something truly astonishing.

Mercantile Notice.
JAMES BARNETT & ISAAC D. G. NELSON
having entered into partnership for the pur-
pose of transacting a general Mercantile busi-
ness in all its various branches under the style and
firm of
BARNETT & NELSON,
Respectfully beg leave to inform the public that
they have recently returned from the East and
are now opening an entirely new and well se-
lected stock of
DRY GOODS, GROCERIES,
Crockery, Boots and Shoes, &c., &c.,
which they will offer to the public at such prices
as cannot fail to give entire satisfaction.
Their stock was laid in very advantageously—
Hosiery, 25 per cent. less than most of the im-
ported goods; and in many instances the same
articles could have been purchased for even less
the fall. Owing to this reduction in price, we
were induced to purchase largely of many kinds
of goods which we shall
Sell at astonishingly Low Prices.
It is not our purpose to boast that we shall
sell cheaper than our neighbors, who doubtless
will sell as cheap as they can afford, but if our
goods are less money, we certainly can give a
GOOD BARGAIN to those who wish to avail
themselves of the opportunity, and lose nothing
by the operation.

At very low prices at which we shall sell our
goods if we had no other reasons will preclude
the possibility of our giving even a limited ex-
clusive. We shall therefore confine our trade exclu-
sively to CASH, or the PRODUCE of the country, for
which latter article we will at all times pay the
highest market price either in cash or in goods at
cash prices.
That we will do what we have represented we
wish the public to test by calling at our Store in
Barnett & Nelson's Brick building on Calhoun
street next door to P. P. Bailey's Hardware
Store, sign of the Padlock. Further particulars
hereafter.

THIS "Celebrated Remedy" has now, by its

can never be shaken by the many quack "No-

public are fast learning that this is the only reme-

ly that can be relied upon for the speedy and permanent cure of all Diseases of the Lungs. It is literally sweeping Consumption from the land wherever it is introduced and becomes known, all others' wands into insignificance; the public have been "humbugged" long enough, and now resort to a medicine which the testimony of the most eminent physicians in the land has placed

above the reach of criticism. It requires no bolstering up by publishing columns of forged certificates—but it is enough to let the public know where it can be obtained, and our trial will convince all of its great efficacy in curing those distressing diseases above named, which have baffled the skill of the most learned practitioners for ages heretofore. Therefore, the public should be on their guard, and not be deceived by worthless mixtures.

None need mistake who seek to find it—
It has two fronts as he designed it;
